Tom Lae can't be there for this meeting, Chris--and I really need him there (more money was added to his contract so I have him working on Area 40/OU7 stuff through Sept 2018).

Instead of Area 40 can we plan for a VI meeting that day along with the C29/C41 field work? You'll have had the tiers we assigned to each building and the additional data we requested since 22 May; if you can get us some of the info before this call maybe we could plan a winter VI sampling close out discussion. So far both Matt and Dan are available 5/31 at the following times to call in to a VI meeting: 8-10, 12-1, 2-5.

Ok. I have scheduled a meeting for after lunch on May 31 to discuss Area 40 remedies. Please plan on arriving around 10am and we can visit the drilling activities in Glenborough Phase 1 and tour the area.

Hi, Chris. Pls keep me posted on soil gas field work for Glenborough. It would be good for Liv and I to see the area but the only day that works for both of us in the next 2 weeks is 5/31. I'll need to cancel a meeting I have that day though so pls let me know soon so I can coordinate. Thanks, Lynn
